

EKKO® is the brand that reaches the market in order to reduce maintenance costs and improve the economy of those who derive their livelihood from the daily use of a vehicle, whether it's a car or a motorcycle.

EKKO® develops products that meet the quality and price criteria of those who are in the streets everyday.

EKKO® supplies the great market demand for replacement parts that, due to their constant and extreme performance, are subject to greater wear and tear, such as:

- Suspension: Shock absorbers, Shaft tips.
- Engine: Gasoline Pumps, Valves.
- Electrical: Spark Plugs.
